New In Explorer

ADMIN

Switchback from CONNECTAdmin to CONNEXplorer

SEARCH/IDENTIFY

The pan tool is now known as the **Select Tool**. More on this in Workspaces section.

There is now a **CLEAR ALL** option when you perform a search or an identify function. This will erase highlighted features, identify area (red box/line/circle) and results that appear in the right-hand pane. It is found in the Options menu in both the Identify and Search panels.

You can Identify multiple features that are non-contiguous (not touching).

Measurement Tools/Annotations

The **Select Tool** allows you to enter “edit mode” of a previously pinned measurement or annotation with a simple click on the object.

You can now **set the radius of the circle annotation** using the same Select Tool as mentioned above.

Text annotations can be multi-line now.

Explorer Training & Dates

- Explorer Training Overview – Learning Objectives
 - Understand the functions of CONNECTExplorer
 - Understand how the analytical tools can help increase productivity and efficiency on a daily basis
- Training throughout Los Angeles February 22nd – February 26th – In Person
 - Monday, 2/22 – Downtown** – 2 classes/2 hours long/**25 attendees each** -
<https://www.wejoinin.com/sheets/teryn>
 - Tuesday, 2/23 – Pasadena** – 2 classes/2 hours long/**12 attendees each**
– <https://www.wejoinin.com/sheets/ozcwc>
 - Wednesday, 2/24 – Santa Clarita** – 4 classes/1½ hours long/**12 attendees each**–
<https://www.wejoinin.com/sheets/qatii>
 - Wednesday, 2/24 & Thursday, 2/25 – Long Beach** – 4 classes/2 hours long (2 per day)/**20 attendees each** – <https://www.wejoinin.com/sheets/xkjem>
 - Thursday, 2/25 – Arcadia** – 2 classes/2 hours long/**16 attendees each** –
<https://www.wejoinin.com/sheets/fxvzr>
 - Friday, 2/26 – Downtown** – 2 classes/2 hours long/**25 attendees each** (same venue as Monday) -
